

Job Title: AI Specialist

Company: Chugwar Digital

Location: Remote

Chugwar Digital is a leading digital marketing agency that leverages cutting-edge technologies to help businesses thrive in today's competitive landscape. We are currently seeking a talented and experienced AI Specialist to join our team on a full-time basis.

Responsibilities:

- Develop and implement AI and machine learning solutions to help our business operate more efficiently and effectively
- Work closely with internal teams to identify opportunities for implementing AI and machine learning solutions across various areas of the business
- Design and implement models, algorithms, and statistical methods to extract insights and improve business processes
- Evaluate and improve existing AI and machine learning models to increase accuracy and effectiveness
- Stay up-to-date with the latest industry trends and best practices in AI and machine learning, and share knowledge with internal teams

Requirements:

- Bachelor's degree or higher in computer science, engineering, or related field
- 5+ years of experience in AI and machine learning development
- Experience with programming languages such as Python, R, and Java
- Strong understanding of statistical modeling and machine learning algorithms
- Experience with natural language processing, computer vision, and/or deep learning
- Excellent problem-solving skills and ability to analyze complex data sets
- Strong communication and collaboration skills, with the ability to work effectively in a team environment

If you're a skilled AI specialist with a passion for innovation and a desire to work with a dynamic and forward-thinking team, we want to hear from you!
